

OXYGEN REGULATORS

IN STOCK - available at applied-inc.com

OxyGo Flex-Regulators

OxyGo mini-click stop regulators include all of the major flow settings of the 0-8 lpm regulator, and also 10 and 15 lpm flow settings. Their lightweight, but durable aluminum body makes them easy to transport and safe to use.

OxyGo oxygen regulators have flex-reg liter flows that work for pediatric patients all the way to hospice and ambulance needs - and they can change with your patient as their prescription transitions.
