Rapid Pigtail Inspection Form

Applied Home Healthcare Equipment recommends pigtail inspections at least annually. This inspection can be done in-house or performed by Applied. Applied's pigtail inspections include pressure testing, leak detection testing, visual inspection of the stainless steel braiding of the pigtail, and visual inspection of the pigtail fittings.

INSTRUCTIONS:

1. Please be sure to return this form in the box with your pigtails for inspection.
2. Please keep all fittings on your pigtails. We cannot perform testing and inspection without fittings. If your pigtails come to us without fittings, there will be a \$5 charge per pigtail to attach our own fittings and remove them at the end of the testing.
3. Only the quantity and items shown on the form can be returned on this authorization. In the event that your pigtail fails, we will automatically inspect and send you NEW equipment and dispose of your old equipment, unless you indicate otherwise below.
 - If my equipment fails inspection, please send me NEW equipment and dispose of my old equipment.**
 - If my equipment fails inspection, do not send me new equipment. Send back my old equipment and I will pay the inspection fee and the shipping fee for return.**
4. Should you have any questions regarding your return, please contact us at (888) 327-7301, press 1.
5. Ship to: Applied Home Healthcare Equipment, Attn: Pigtail Inspection Dept, 28825 Ranney Parkway, Westlake OH 44145
